Chimney cap

Chimney caps are ideal to protect the chimney chase from damages caused by rain, snow and storm. Additionally, SAREI's chimney caps give your chimney a visually appealing finish.

We produce our chimney caps according to DIN 18 160 and the fact, that they are non-corroding, ensures high durability.

Perfect protection for your chimney!

Available materials:

- high-grade steel
- copper
- rigid or hinged version

Standard caps for chimney chase (external dimensions):
400 x 400 mm, 500 x 500 mm and 600 x 600 mm

Please contact us, if you are interested in special sizes.

rigid version

hinged version

Chimney chase	Quantity		Fastening		External dimensions of chimney chase	
	high-grade steel	copper	rigid	hinged	length in mm	width in mm
						
- Please specify the external dimensions of the chimney chase when sending us your enquiry/order! - The chimney cap is manufactured 50 mm circumferentially larger.						

Attention

- Make sure that the supporting surface of the chimney chase is even, horizontal and solid.
- Before mounting: Check wind load and load-bearing capacity of the chimney chase. (If you are uncertain, contact a chimney sweeper.)
- Use the included dowels only for solid masonry and concrete slabs.
- The chimney cap has no pilot holes, so you can mount it individually.
- The ultimate consumer bears responsibility for professional and properly mounting of the chimney cap. Neither the producer, nor the trader can be held responsible for improper mounting!

Chase cover

Chase covers are ideal to protect the chimney chase from damages caused by rain and give your chimney a visually appealing finish.

We produce our chase covers according to DIN 18 160 and the fact, that they are non-corroding, ensures high durability.

Perfect protection for your chimney!

Available materials:

- high-grade steel
- copper

Please contact us, if you are interested in other materials.

Production:

- 50 mm lateral chamfer (circumferentially)
- circular or quadrangular cutout

Chimney chase	Quantity		External dimensions of chimney chase				
	high-grade steel	copper	length in mm	width in mm	d1	d2	∅
							
- Please specify the external dimensions of the chimney chase when sending us your enquiry/order! - The chase cover is manufactured 25 mm circumferentially larger.							

Attention

- Make sure that the supporting surface of the chimney chase is even, horizontal and solid.
- Use high-grade steel screws with rosettes and rubber washers to mount the cover.
- The chase cover has no pilot holes, so you can mount it individually.
- The ultimate consumer bears responsibility for professional and properly mounting of the chimney chase cover. Neither the producer, nor the trader can be held responsible for improper mounting!

Chimney housing

SAREI's chimney housing is a pre-fabricated construction kit according to customer specifications for subsequently mounting.

Offers durable protection from outside influences and gives unsightly or weathered chimneys a new look.

coloured aluminium, pre-weathered zinc & copper

- pre-fabricated construction kit according to your specifications
- different materials available
- no soldering/brazing or bending

Attention

- Make sure that the supporting surface of the chimney chase is even, horizontal and solid.
- Before mounting: Check wind load and load-bearing capacity of the chimney chase. (If you are uncertain, contact a chimney sweeper.)
- The ultimate consumer bears responsibility for professional and properly mounting of the chimney housing. Neither the producer, nor the trader can be held responsible for improper mounting!
